| ▸ Data-Driven Decision Making · OKRs & KPIs | ▸ Cross-Functional Collaboration |

EXPERIENCE

Senior Product Manager - Walmart Global Tech(Marketplace)

MAR'25 – Present

- Own end-to-end product strategy for seller onboarding and activation across the US, Canada, Mexico, and Chile marketplaces, balancing growth with risk, compliance, and operational efficiency.
- Built a **Seller Activation platform** that identified sellers with high first-sale potential and delivered personalized recommendations on **assortment growth, competitive pricing, and promotions — increasing seller activation by 10%**.
- Redesigned the seller onboarding journey, improving **sign-up completion by 10%** and driving **\$15M+ in incremental GMV within 10 months**.
- Ran **A/B experiments across the onboarding funnel** to optimize seller conversion and reduce drop-off.
- Built an **AI-powered seller onboarding co-pilot** and automated workflows for verification, catalog setup, and compliance, significantly reducing manual effort.
- Reduced **fraudulent seller onboarding by 15%** through ML-driven risk detection while keeping the experience seamless for legitimate sellers.
- Partnered with Business, Engineering, Risk, Design, and Compliance to build scalable, data-driven marketplace solutions.

Senior Product Manager - Whatfix (B2B SaaS)

AUG'21 – JAN'25

- Scaled the company website with Product Marketing, HR, and Design; generated a **\$7M revenue pipeline** and achieved **\$1.5M in revenue** through conversion and funnel optimization.
- Launched a customer health / churn-prediction product with **~85% accuracy, reducing churn by 10%** through proactive interventions.
- Led the Enterprise Admin platform for license management and configuration — saving 40% admin time and **increasing product adoption by 20%**; drove license expansion and upsell of add-on modules.
- Built a Salesforce ecosystem as the single source of truth for ARR, GRR, licenses sold, and contractual data, reducing manual reporting by 25%.
- Streamlined Customer Success workflows, driving annual savings of INR 2Cr+ through automation.
- Hired and mentored 3 PMs; guided a cross-functional team of 5 developers, 2 data analysts, and 1 data engineer.

Product Manager - IndiaMART (B2B E-commerce)

JUN'19 – AUG'21

- Built a **Price Intelligence solution for 5M+ sellers** that standardized pricing units, detected anomalous prices, and recommended competitive price ranges — improving listing quality, seller experience, and pricing confidence.
- Developed **Price Analytics for 100M+ buyers**, surfacing category-level price trends and benchmarks to increase transparency and inform purchasing decisions.
- Launched a **WhatsApp-based Catalog Enrichment solution** that cut listing time by 80% and enabled **100K+ new products per month**, accelerating catalog growth and seller productivity.
- Led an **ML-powered customer support platform on WhatsApp** achieving **94% chatbot accuracy** while reducing operational costs.
- Drove marketplace growth by optimizing **product discovery and SEO, increasing organic traffic by 300% in 15 months**.

Product Management Trainee - YES Bank

MAY'18 – JUL'18

- Enhanced Current Account offerings and designed a Liquidity Management portal for a leading corporate bank in India.
- Conducted market analysis and cost-benefit assessments, building use cases and architecture identifying key vendors and benefits.

Applications Developer - BNY Mellon Technologies

AUG'15 – MAY'17

- Developed NetX360, a cloud platform for financial firms to manage client onboarding, portfolios, and servicing; reduced open incidents by 90%.
- Implemented OTP authentication (–25% security incidents) and automated production-support monitoring (–98.33% time).
- Managed all phases of the SDLC across cross-functional teams — +15% stakeholder satisfaction, –25% post-launch defects.

EDUCATION

Master of Business Administration (MBA) - Indian Institute of Technology, Kharagpur (IIT KGP) · Jun 2017 – May 2019

Bachelor of Engineering (B.E.) - Yeshwantrao Chavan College of Engineering (Y.C.C.E) · Jun 2011 – Jun 2015
